

**Royal Welsh Agricultural Society  
Spring Festival 18 & 19 May 2013  
(Smallholders Show)**

**Pig Section**

Dear *Association Member*

In order to promote and raise the profile of the Pedigree Breeds of Pigs in the UK and to bring them to the attention of the large number of people new to the smallholding / farming way of life who traditionally attend this show, many new to livestock, we have made an area available in the Pig Building for a section of free Breed Stands. These are available to non-professional amateur clubs or just groups of a few people who would like to advertise their breed of pigs. We hope you will be able to take up this offer and promote your breed.

We are aware that the majority of Breed Societies / Clubs are not in a financial position to support elaborate stands. The intention is to keep the area simple, informative and educational and to promote the breed you are representing.

We will supply a pig pen, straw, trestle table and chairs. You may cover your area with a small garden-type gazebo if you wish and dress the area with promotional material relating to your stand, but not to sell merchandise as it would then become a trade stand

We hope you are able to take advantage of this offer to promote pedigree pigs and your own breed in particular.
